April 8, 2005

I highly recommend Jonathan Weingarten and the staff at More Office Solutions when purchasing copy/fax machines. I recently purchased the IR 2270 and am 100% pleased with the service by the team at More Office Solutions.

Jonathan's courteous sales approach was what initially caused me to want to work with More Office. I am a tough customer and usually put people through the wringer to get what I need for my business. Jonathan continued to be as friendly and polite as he was the first time he walked into my office. He was always honest, direct, and completely informative and backed up all his claims.

The rest of the team at More made sure everything went as promised. Scheduling installation of the machine and various modules was smooth due to their concern for the customer. They were prompt, prepared and addressed all of my questions to my satisfaction.

With fax and copy machines being such integral part of doing business today, changes can sometimes be disruptive. More Office Solutions is certainly aware of this and can do the job to make sure businesses run smoothly during these transitions.

Sincerely,

Leslie A. Wilson
