

6/15/2004

Dear Potential Ray Morgan Customer,

I am writing this letter to recommend the Ray Morgan Company. We currently have five networked machines from them. We have been customers of theirs for over a year now and have been nothing but Impressed with the products and the service.

As a network administrator, I feel very confident in the technology that we have in place and on the rare occasions when I have a temporary difficulty, Ryan Thomas or David Noble have been available to help me. Their service department has been very responsive. This has been a great improvement on our previous vendor. I would recommend them to you without hesitation.
